

Dear Parents,

Sponsored event

During the past year we have been working hard in school to raise money towards updating our IT resources to support the wider curriculum including the changes to the computing curriculum.

To support this further we have decided to hold a sponsored computing event. This will help us teach the children the value of computing as well as being aware of the dangers the on-line world can bring.

We invite you to sponsor your child to take part in our 'Computing Challenge' by offering an amount per challenge or by an amount for taking part. The challenges the children are given will be appropriate to the age and ability of the children, and the amount of challenges you undertake will be personal choice (See attached booklet). Children will also be awarded an internet legend certificate for taking part.

We will speak to the children about appropriate sponsors to ask. E.g.; family, friends, neighbours, parent/carers work colleagues. We will make sure they know who not to ask e.g.; strangers, teachers.

The sponsored event will be launched on Friday 3rd May. We would ask the children complete the challenges and return them by Friday 24th May. These will be checked by class teachers and sponsor forms will be returned after the event for sponsorship money to be collected and returned to school by Friday 7th June.

We thank you for your support with this event and the money raised will enable us to buy a suite of laptops for all classes to share.

Kind regards

Mrs Kay Hanson
